What You'll Need to Get Started

- You need a computer with an Internet connection.
- System Compatibility: I-Billing is compatible with most internet browsers.
- Adobe Info - You must have Adobe Acrobat Reader version 4.0 or higher to use any of the four functions. You can get it free by following this link: [Get Adobe Acrobat Reader](#)

Initial PIN for New Providers

License Exempt Provider:

A Personal Identification Number (PIN) will be mailed to first-time providers when:

- MDHHS has processed the [MDHHS 4025 Provider Verification](#) form authorizing the enrolled provider to provide child care. Please allow MDHHS 10 days processing time following the receipt of the MDHHS-4025 Verification form before reaching out to CDC for assistance.
- The enrolled provider has completed License Exempt Provider Preservice Training (LEPPT).

This PIN will be used to associate the provider's MiLogin for Citizens account with their provider ID giving them access to I-Billing. For more information on creating that access, see [Provider Guide for Adding I-Billing to MiLogin Account](#).

Current and returning providers who have previously had PINs issued will need to access I-Billing by using MiLogin for Citizens. CDC is no longer able to reset PINs.

Please see [Provider I-Billing \(michigan.gov\)](https://www.michigan.gov/mileap/early-childhood-education/early-learners-and-care/cdc/providers/resources/provider-billing-help) for more information on how to associate the MiLogin for Citizens account with the provider ID number.
